

# V-SERIES WITH E-P PLUS® CONTROL

PROGRAMMING FLEXIBILITY • TWO CAPACITIES • RINSAVE® WATER SAVER

30022 VRJ

## HIGHLY PROGRAMMABLE CONTROL FOR EASE OF USE AND FLEXIBILITY

This comprehensive control can hold 30 wash formulas (including 10 pre-programmed for any of the eight industries), which allows the operator advanced flexibility. The E-P Plus owner/operator may manually create or modify formulas, for accurate and proper

washing. The E-P Plus control also features universal temperature control, programmable cooldown, programmable bath soak, and overnight soak. The two-line display notifies the operator of key benchmarks (wash step, time remaining, etc.), which increases productivity and reduces downtime.

## RINSAVE® WATER SAVER FEATURE

The innovative RinSave® Water Saver feature allows a precise G-force to "sling" the wash liquor (including water, chemistry, and soil) out of the goods after a wash step – saving up to 2 rinses per load and fill/rinse time.

## SUPERIOR CYLINDER DESIGN

Milnor's superior cylinder design and tall, lifting ribs yield greater wash/rinse quality.
